

Assignment -4

Assignment Date	5 NOVEMBER 2022
Student Name	R.Divya
Student Roll Number	822119104013
Maximum Marks	2 Marks
Team ID	PNT2022TMID46961

Question-1:

Write code and connections in wokwi for the ultrasonic sensor.

Whenever the distance is less than 100 cms send an "alert" to the IBM cloud and display in the device recent events.

Upload document with wokwi share link and images of IBM cloud

Solution:

```
#define ECHO_PIN 2
#define TRIG_PIN 3
#define organization = "3gcqg0"
#define deviceType = "Ultrasonicsensor"
#define deviceId = "b11m3edeviceid"
#define authMethod = "use-token-auth"
#define authToken = "v?J8iAARoSx(p_gCsL"
void setup()
{
  Serial.begin(9600);
  pinMode(TRIG_PIN, OUTPUT);
  pinMode(ECHO_PIN, INPUT);
}
float readDistanceCM()
{
  digitalWrite(TRIG_PIN, LOW);
  delayMicroseconds(2);
  digitalWrite(TRIG_PIN, HIGH);
  delayMicroseconds(10);
  digitalWrite(TRIG_PIN, LOW);
  int duration = pulseIn(ECHO_PIN, HIGH);
  return duration * 0.034 / 2;
}
void loop()
{
  float distance = readDistanceCM();

  if (distance <= 100)
  {
```

```

Serial.println("ALERT!!! ALERT!!! Object Detected");
}
else
{
Serial.print("Measured distance: ");
Serial.println(readDistanceCM());
}
delay(1000);
}

```

SIMULATION OUTPUT:

The screenshot displays the Wokwi simulation environment. On the left, the code for the ESP32 is shown, which initializes pins 2 (ECHO_PIN) and 3 (TRIG_PIN) and implements a distance-measuring function using the ultrasonic sensor. The main loop checks if the measured distance is less than or equal to 100cm. If true, it prints an alert message; otherwise, it prints the measured distance. A 1-second delay is included between measurements.

On the right, the simulation output window shows the following sequence of events:

```

ALERT!!! ALERT!!! Object Detected
ALERT!!! ALERT!!! Object Detected
ALERT!!! ALERT!!! Object Detected
ALERT!!! ALERT!!! Object Detected
ALERT!!! ALERT!!! Object Detected
ALERT!!! ALERT!!! Object Detected
ALERT!!! ALERT!!! Object Detected

```

The bottom of the image shows the Windows taskbar with various open applications and the system clock indicating 12:45 on 08-11-2022.
